EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Y. C. Sze (Reg. No. 43,943) on May 26, 2005.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 49 – 58.

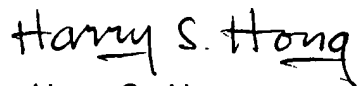

2. The following is an examiner's statement of reasons for allowance: The invention as claims is not disclosed or rendered obvious in view of the prior art of record. The prior art teaches sending false ringing indications to the caller (see Fuller et al. as applied in the Office Actions and also column 7, lines 9 – 15 of Smock et al. (US 6,195,423 B1), however, the prior art of record fails to teach or suggest, alone or in combination, the claimed feature of sending a false ringing indication to the caller when the caller identification information matches/(does not match) an entry in a caller database.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
